

Lean Manufacturing Specialist

– Bristol, Gloucestershire, Wiltshire, South Wales

Based from home - Working on clients sites predominately in the South West
Full-Time - Salary Package 40k – 55K + benefits (Depending on experience)

At Exelin Ltd, we help businesses to improve, innovate and grow. We provide inspiring training and consultancy to businesses to help achieve their goals and ambitions.

Joining our dedicated team of manufacturing specialists, you will deliver in-company consultancy projects and support to ensure our clients gain the increased capability, capacity and confidence to grow and compete.

The Role:

- Deliver comprehensive diagnostics on client sites to understand key issues
- Generate tailored proposals and deliver improvements through consultancy projects
- Generate new and manage existing client relationships
- Deliver on site improvement training using our structured materials
- Develop existing and new training materials to meet client individual needs
- Delight the client by helping them to improve and grow their business

The Person:

- Confident outgoing personality able to engage with people at all levels in a business
- Experienced in working in a manufacturing, engineering or service environment
- Technical ability to deliver consultancy projects in areas such as lean, six sigma, design, project management, leadership or strategy.
- Ability to deliver and manage diverse on-site consultancy projects
- Existing experience of delivering lean and continuous improvement projects in a broad range of environments
- Willing to work on client sites in the UK with potentially some overseas travel
- A degree-level, or equivalent education

If this is you, please email your CV and covering letter to Gavin Scott – gavin.scott@exelin.co.uk
